Ordering

Call **0161 241 9872 / 0792 935 8157** to order or get a quote.

Open from 9am until 7pm, Monday to Saturday.

Build and Delivery

Some sizes of our standard designs are in stock and available for next-day dispatch. For other sizes allow 2 weeks for build and delivery (Franklyn glass balconies can be as quick as 2 days).

If you have in mind a bespoke design we can build it – just give us a call to discuss your idea.

Delivery is available throughout the UK and Europe. Mainland UK delivery charge for balconies is £40 per order, for orders with a maximum width of 1500mm, and £50 for larger width orders.

No Hidden Costs

All prices include galvanising, fixings, top-up paint and VAT.

No extra charge for credit card payments.

Standard colours are black, white, anthracite grey or graphite silver.
You can specify the RAL colour of your choice for an extra **£25 per balcony**.

Powder coating option at **£40 per balcony**.

Quality Guarantee

If for any reason you are not completely satisfied with the service we provide, simply return the unused goods to us within 2 weeks for an immediate replacement or refund.

Steel Juliet Balconies

All prices include VAT

Prices are for example widths - we can make any size!

For correct size to purchase, add 300mm to the width of the window or opening.

SMALL PLATFORM OPTIONS

All our steel juliet balconies and the Mirage glass balcony are available as a small platform option. Pricing is according to the width and depth of the standard balcony to which you add the platform.

up to 1500mm width balcony:

For a 300mm depth platform, add £650 to the cost of a standard balcony.

For a 500mm depth platform, add £750 to the cost of a standard balcony.

1500 to 2500mm width balcony:

For a 300mm depth platform, add £750 to the cost of a standard balcony.

For a 500mm depth platform, add £850 to the cost of a standard balcony.

2500 to 3000mm width balcony:

For a 300mm depth platform, add £850 to the cost of a standard balcony.

For a 500mm depth platform, add £1000 to the cost of a standard balcony.

Over 3000mm width balcony:

For a 300mm depth platform, add £1200 to the cost of a standard balcony.

For a 500mm depth platform, add £1400 to the cost of a standard balcony.

SWING OPEN BALCONY OPTION

For French windows, or to be able to open the balcony to bring in furniture, we can provide an opening version of any of our balconies (or your own bespoke design) for an extra £100 per balcony.

Just give Steve Clough a call on 0161 241 9872 / 0792 935 8157 to discuss your project or get a quote – we are open until 7pm.

GLASS HANDRAILS

£32 per metre

Balcony Technical Specifications

Also see our [technical specifications page](#)

Loading Specifications

Design load on each fixing =0.6kN (unfactored working load based on 1.5m wide structural opening size).

Guarding is capable of resisting a horizontal force of 0.74kN/m minimum applied to the handrail.

All stainless steel fixings supplied with balconies will perform to the same loading calculations.

Steel

Franklyn balconies are made from marine-grade 316 steel. All other steel balconies are made from steel conforming to BS4360, and hot-dip galvanised to BS729 to prevent corrosion.

Glass

Most glass is 10mm, toughened, heat soaked and kite marked. Hilton balcony glass is either 17.5mm thick (up to 1.6m wide) or 21.5mm thick (from 1.6m to 3m wide).

Welding

All welds are to BS5135.

Design safety

There are no gaps greater than 100mm in any design.
